

- 1. Title of the event: 13th Chemical Society Lecture:**
Workshop on Research Methodology
- 2. Venue:** Digital Classroom, Nalbari College
- 3. Date:** 22/02/2024
- 4. Organized by:** Chemical Society, Department of Chemistry
- 5. Faculty Coordinator: Dr. Purabi Sarmah**
- 6. No of Participants in details (students):** More than 40
- 7. Nature of Participation:** Students & Teacher
- 8. Activities Carried out / Detail Description of the event:**

Dr. Bipul Sarma, a faculty member of Chemical Science Department, Tezpur University was present amongst us as a resource person in a one-day workshop on research methodology. Dr. Sarma has a vast experience of research as his research carrier was spanning over nearly two decade or so. He has also post-doctoral research experience of working in the world's top-class institutions like Massachusetts Institute of Technology (MIT), USA and Illinois Institute of Technology, Chikago, USA. We were very fortunate to have such an eminent personality as our resource person who happens to be an alumnus of our college also.

Dr. Sarmah in his talk emphasized how research is being an integral part of higher education now a days as NEP focuses on research and innovation at the undergraduate level itself. He clearly explained in his simple and lucid deliberation the role of research methodology in carrying out research addressing any particular issue or problem. The workshop was indeed a very successful one and was found to be fruitful for our undergraduate students.

After the talk, an interactive session was also continued for more than half an hour. He also discussed the prospects of higher education and opportunities of the internship program those can be availed during the period of summer or winter vacations. We think that the purpose of holding such a workshop was fully served.

A News Letter (2022-2023) of our department was also inaugurated on the day of the workshop.
