- 8. Detail Description of the event:**

Our recent excursion to Mohkhuli Sericulture Farm in Baksa District was an enlightening and transformative experience. Spanning an expansive 52 bigha, the farm is renowned for its prolific production of muga, eri, and pat silk cocoons, boasting an impressively high yielding capacity. The farm operates under the astute management of Mr. Ratul Kalita, whose dynamic leadership and hands-on involvement in the rearing processes and meticulous inspection of the farm's every nook and cranny significantly enhance its operations. Mr. Kalita's dedication and expertise provided our students with invaluable insights into the intricacies of sericulture. This fieldwork proved to be immensely beneficial, enabling each student to adeptly compile a comprehensive project report, thereby fulfilling the prerequisites of their practical examinations. The firsthand exposure to the meticulous processes of silk cultivation and the opportunity to observe industry best practices under Mr. Kalita's guidance was instrumental in broadening the students' practical knowledge and enhancing their academic proficiency.
