

Report on
A Workshop on “Fundamental Analysis of ICT tools”, organised by
Department of Geology, Nalbari College, Nalbari
Resource Person: Sri Ankur Baishya, Assistant Professor, Nalbari College
Date: 02 March 2022
Venue: Department of Geology, Nalbari College

The Department of Geology hosts a workshop focussing on implementation of knowledge of computer applications in day to day life as well as in their BSc Course. The session was led by Sri Ankur Baishya, Faculty of BSc IT Department of Nalbari College. He delivered a wonderful lecture on application of various softwares which would help the students in preparing notes in the BSc course, as well as in their future endeavours. He also gave a brief explanation about the hardware parts of a computer for basic understanding of the participants. The participants had an interactive session and cleared their doubts through queries. In a highly growing digital world, knowledge of computer applications has become a mandatory skill. The participants appreciated the topic of the workshop and stated that this session helped them in improving their computer knowledge to be applied in the field of Geology. This workshop enlightened the participants regarding the use of softwares and would help them in their research activities.
